

CAR TRANSPORT

WHY BRIAN JAMES TRAILERS?

SMOOTH RIDE

Designed for long distance and heavy loads, our running gear features rubber torsion axles for stable, effortless towing, low maintenance sealed-for-life bearings and auto-reverse brakes for increased driving safety.

MARKET LEADERS

Our reputation for quality and reliability has made us the go-to manufacturer for the automotive logistics and motorsport industries for over 40 years.

PERSONALISATION

The modular design of our trailers means they are highly configurable with an extensive range of options enabling you to create a trailer that's perfect for you.

STRONG RESIDUAL VALUES

Our reputation for quality has ensured that our trailers have strong residual value. As well as working hard, our trailers hold their value for many years.

HIGHER STANDARDS

There is a high level of standard specification across our range, including spare wheel, anthracite alloy wheels, locking coupling head, LED lighting, multiple strapping points and rear loading ramps.

NO HIDDEN CHARGES

All our trailers come ready for use without the need for additional options and with delivery to your local dealer included in the price.

DEALER SUPPORT

Our dealers are chosen for their high levels of customer service and aftermarket support, which combined with excellent product availability through our network, means you can find a trailer that is right for you.

AVAILABILITY

The design of our trailers and good levels of dealer stock means that a trailer can quickly and easily be configured to match your needs. We can also 'make to order' your exact specification within a short lead time.

PRICE PROTECT

Our 'Price Protect' promise guarantees the price at time of order (subject to agreed deposit), even if prices rise before delivery.

5 YEAR WARRANTY

A 5-year warranty on all BJT manufactured parts including the chassis gives you the confidence that our trailers are of the highest quality; the reason why they are chosen by professional users around the world.

CHOICE OF COLOURS

Our trailers are configurable in a choice of colours where you see these logos:

5 colours

2 colours

Colours available: Red, Anthracite, Blue, Black, White and Yellow.

RACE TRANSPORTER 7

RACE TRANSPORTER 7

← WIDE BED →

2 colours

The Race Transporter 7 is the ultimate enclosed car trailer with an industry-first powered rear loading door. The trailer features an extremely high standard of specification and is built with a lightweight composite deck. It is available in both black and white.

AT A GLANCE

- The ultimate, high specification enclosed car trailer available in twin or tri-axle variants.
- Wheels under the chassis allows a wide bed providing the flexibility to transport wider vehicles.
- Lightweight chassis and composite flooring delivers significant weight saving to the benefit of greater load capability.
- First in class actuator powered rear door as well as electric tilt bed and electric winch with synthetic rope; all standard features.
- Full LED lighting.

CONFIGURE YOUR RACE TRANSPORTER 7...

with a **Store Station**

For increased storage and organisation of components

with **360° Cameras**

Four cameras for all-round visibility and safe manoeuvring

with **Race Ramps**

RACE SPORT

NEW RACE SPORT

↓ **LOW BED** ↓

2 colours

High performance, premium enclosed car transporter with specification to match. Designed for motorsport, exotics and classic cars as well as automotive logistics. The new Race Sport adopts the look and many of the features and options from the Race Transporter 7.

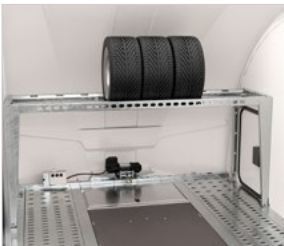

AT A GLANCE

- Up to 3,500kg gross weight, with bed lengths of 5m to 5.5m.
- Low bed design for optimum towing performance and a low loading angle.
- Large side doors and hatches for easy access.
- Now available with manual or electric tilt-bed.
- Wide range of options include awnings, storage racks and tyre rack.
- Choice of reversing cameras or 360 Vision can be fitted for added safety and ease of manoeuvring.
- Standard features include full LED lighting, anthracite alloy wheels, electric winch, front under-deck storage bins, wheel chock and spare wheel.

CONFIGURE YOUR RACE SPORT...

with a **Tyre Rack**

For storage of multiple spare wheels and fuel cans

with a **Reversing Camera**

120° camera provides assistance when reversing into tight spaces

with **Tilt-Bed**

Tilt operation effortlessly creates a low loading angle

RACEBOX

NEW RACE BOX

↓ LOW BED ↓

 2 colours

A new premium offering in the smaller end of our enclosed car transporter range. Race Box takes the look and construction of our largest trailers features and condenses into a smaller package that is ideal for classic cars, historic motorsports, track cars and single seaters.

AT A GLANCE

- Available in 1.95 bed width, 3000Kg Gross Weight and 4, 4.5 and 5m bed lengths.
- Low bed design for optimum towing performance and a low loading angle.
- Gullwing doors and pedestrian doors on both sides provide easy access.
- Standard equipment includes runway deck pads for over-wheel strapping, full exterior LED lighting and anthracite alloy wheels.
- A choice of black or white models available in all sizes.
- Optional equipment includes an electric winch, wheel chocks and a front store station.

CONFIGURE YOUR RACE BOX...

with **Wheel Straps**

These tie-down wheel straps hold the vehicle safely and securely

COMMERCIAL TRAILERS

As well as making car transporters, Brian James Trailers has an enviable reputation for the design and manufacture of flatbed, plant and tipper trailers. These trailers can be configured with a range of options and accessories so they can be tailored to your precise requirements with the addition of winches, different loading options, side extensions and more. Many of these trailers feature our unique 'Click & Clamp' system for the easy addition and removal of options.

BOX VAN

The new Box Van trailer offers ultimate practicality with a high standard specification and an option list that allows you to personalise this premium trailer.

CONNECT

A flatbed trailer that's deal for the transportation of construction materials and pallets as well as machinery and vehicles. A huge choice of options allows Connect to be personalised.

TIPPER

A tipper trailer that's available with a wide range of options including heavy-duty side extension and different rear doors.

GENERAL PLANT

A tough all-round plant trailer for a wide range of machinery that is easily configurable with a wide range of options.

DIGGER PLANT

Heavy-duty plant trailers for mini-diggers, access platforms and other machinery.

CHASSIS PLANT

A tough trailer for bolt-on generators and machinery.

ABOUT US

Brian James Trailers designs and manufactures trailers up to 3.5 tonnes gross weight that are built to perform to the highest standards, with an emphasis on quality, innovation, service and performance. All our trailers are designed and manufactured at our factory in Daventry, Northamptonshire, in the heart of the UK's motorsport region.

As well as our car transporter range, we also manufacture a wide range of commercial trailers. Our rugged plant and general-purpose trailers provide safe and secure transport with quiet towing characteristics for diggers, dumpers, excavators, access platforms and other machinery.

The introduction of the Box Van range redefines this category with a premium, high quality trailer designed and built to the same exacting standards as our enclosed car transporters.
